

Learn about ANIMALS with Dr. Seuss!

**“If you hear a rattlesnake’s tail
start to rattle,
it means ‘I might bite you!’
so you’d better skedaddle!”**

—Miles and Miles of Reptiles

**“How do these butterflies
know where they’re going?
Scientists really have
no way of knowing!”**

—My, Oh My—a Butterfly!

**“Sharks have been around
long before the dinosaur.
About four hundred million
years—maybe more!”**

—Hark! A Shark!

FINE FEATHERED FRIENDS

Join a bird-watching tour and learn about hummingbirds, ostriches, flycatchers, bald eagles, and more!

HARK! A SHARK!

Why do sharks have lots of teeth but no bones? How does their skin help them swim fast and stay clean? How do their pores help them sense prey? Find out!

A TALE ABOUT TAILS

Check out a monkey's tail that is strong enough to hold on to branches, a quetzal's tail that is long and colorful for attracting a mate, and a rattlesnake's tail that makes sound as a warning!

MILES AND MILES OF REPTILES

Leaping lizards—what is that? Oh, it's just the Cat in the Hat, traveling the globe in his trusty crocodile car to learn about reptiles!
