

LET'S MAKE MUSIC!

John Cage was known for being able to find music in the world around us. Following his lead, all you'll need for this activity are items you can find around you right now. They can be pencils, rubber bands, a cup of paper clips, or anything you can use to make a unique noise. Assign each object to one of the colors featured below and play the beat. Then write your own!

Symphony No. 9 Fourth Movement, "Ode to Joy"

By Ludwig Van Beethoven
